

# MINERAL WOOL PANELS

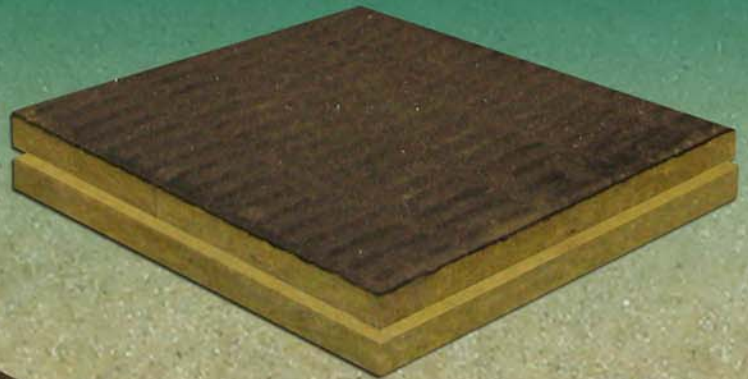

**For flat or low sloped conventional roof assemblies**

## ModulR TS insulation technology

### ProtecRSS Thermal Barrier Board

- Ideal as a substitute to gypsum on roof deck
- Referenced in section 2

### ProtecRSS Overlay / Protection Board

- Ideal substrate for membrane
- Referenced in section 3

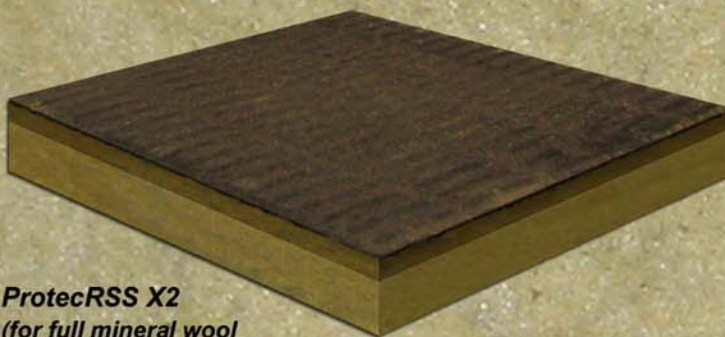

### Tapered ProtecRSS

- Dimensionally stable
- Vapor permeable yet moisture repellent
- Referenced in section 1 & 4

### ProtecRSS with Thermochech option

- Stops thermal bridging
- Prevents fastener back out
- Referenced in section 7

### ProtecRSS X2 (for full mineral wool insulation system)

- Multi density technology
- Referenced in section 4
